Actually I have received this model pattern since two weeks ago, but I just got time to edit it and upload just now. This model was submitted by Kim. As previous of his works, Kim recolor the original Paper Replika F-18 template with new livery. This time he make an F/A-18A from VMFA-232 Squadron. VMFA-232 is a code for US Marine Corps Squadron based in Air Station Miramar, California or The Red Devils. This Squadron is the oldest among other Marine Corps Squadrons, commissioned in 1925 with Vought VE-7 as their first aircraft. This squadron also involved on Operation Iraqi Freedom (2003) the last one on Operation Enduring Freedom (2005-2010) in Afghanistan.
