The Command Car from the original OVA series and the manga. Both Division 1 and 2 use the same type of Command Car. The "Forward" in the Patlabor team relays information to the Police Labor and assess situations from this vehicle. Built like a riot vehicle, it can take a lot of punishment, which is just as well when dealing with rogue Labors.

Specifications:
Unit type: Special Control Vehicle
Manufacturer: Shinohara Heavy Industries
Appearances in anime: Original OVA Series (AKA Early Days); TV episode 1
